MEMORANDUM FOR COMMANDER, DEFENSE CONTRACT MANAGEMENT
COMMAND

SUBJECT: Accreditation of Version 4.0 of the Standard Procurement System (SPS)

As Designated Approving Authority, I accredit the Standard Procurement System (SPS), Version 4.0 for a period not to exceed 3 years. During this time, security reviews shall be conducted annually to assure the continued effectiveness and adequacy of the safeguards contained in the system.

Should one of the following events occur, the system shall be reaccredited within 3 months of the occurrence of the event:

- a. The addition or replacement of security-significant features residing in a major system component.
- b. A significant change to the operating system or executive software.
- c. A significant change to security-relevant administrative procedures.
- d. A security-related change in application software.
- e. The addition of commercial-off-the-shelf software modules which have negative or unknown security related effects on the overall system.
- f. A breach of security or a breach of system integrity, or an unusual situation which appears to invalidate this accreditation by revealing a flaw in the security design.

Questions concerning this matter should be directed to Mr. James Haymaker, CAASA, 767-5438.

A handwritten signature in black ink, appearing to read "E. R. Chamberlin", is located below the text of the memorandum.

E. R. CHAMBERLIN
Rear Admiral, SC, USN
Deputy Director
